MICROSYSTEMS

Leica EM TIC020 Application Note

Cross Section of SiC paper

Goal:

- Cross section of SiC paper

Process description (benchmark values for this particular sample):

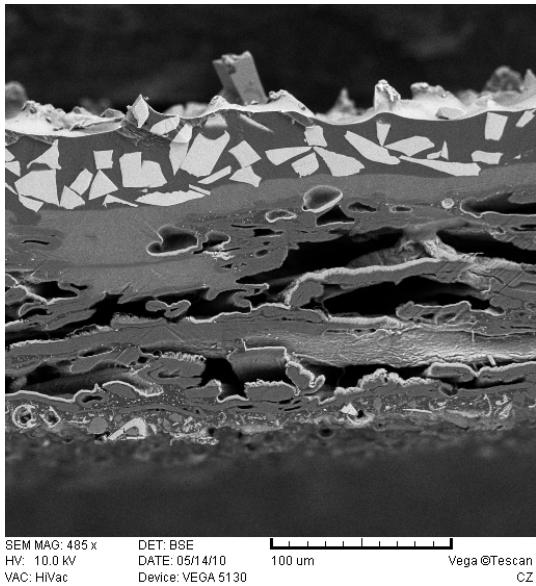

Mechanical pre-preparation:

Parameter	
Acceleration voltage	7kV
Gun current	2.6mA
Milling time	3h
Cut depth	200µm

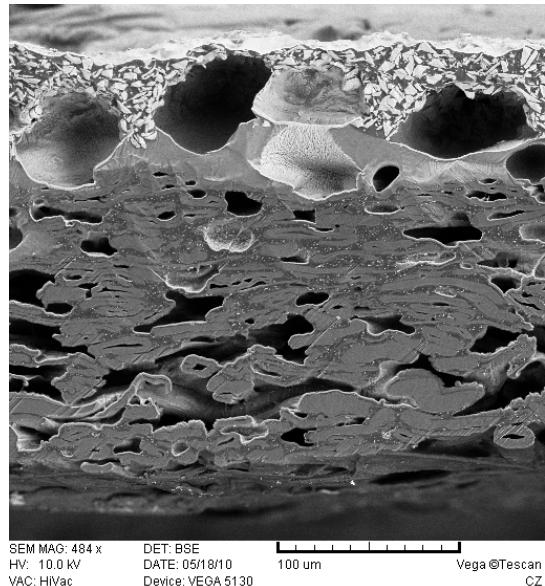

Results:

- Perfect cross section of the SiC paper
- Information about the abrasive particles (size, shape, orientation and distribution)
